

**THE WILSON PRACTICE**  
**Flu clinic**  
**Saturday 12 September 2020**

As you know – things are different this year – so here is a quick reminder:

- **ENTRY** to the Health Centre is by the **BACK DOORS ONLY**
- **You must have an appointment** in order to be vaccinated. We will have to turn away anyone without an appointment due to the high numbers we are dealing with in these clinics.

Please:

- make sure you know if you are booked to the **RED DOOR** or the **BLUE DOOR**; that indicates where you come into the building
- arrive **close to your appointment time** to avoid congestion
- wear a **face covering**
- follow marshals' directions and **maintain social distancing**

**Please note:**

Staff are only able to administer the vaccinations; they will be very busy.

If you have **other health concerns**, complete an **eConsult** (home page of our website) or, if you don't have on-line access, phone the surgery to arrange a call back.

**If you have Covid-related symptoms – please go to NHS111 Online or telephone NHS 111. Please do not attend your appointment**

***We are grateful to all patients for their support with our new arrangements.***
